

Vinh Bao Dang Khoa

Software Engineer

Ho Chi Minh City, Vietnam | +84-528-050-729 | khoavinh.it@gmail.com | in/khoa-vinh | github.com/Dikay3105

EDUCATION

Sai Gon University

Bachelor of **Information Technology, Software Engineering** (GPA 3.45/4.0)

Related Courses: Intro to AI, Software Architecture, Web & Mobile Development, Databases

Ho Chi Minh City

Aug 2021 – May 2026

EXPERIENCE

DAT Group

HCMC, Vietnam

DAT Group, a top tech firm with 19+ years, specializes in Industrial Automation, Elevator Systems, UPS, and Renewable Energy.

Software Engineer Intern

Sep 2024 - Jan 2025

- Designed and developed a full-stack web for editing and viewing articles using Node.js, React.js, and PostgreSQL
- Created RESTful APIs to handle CRUD operations for articles, including the ability to mark articles as featured.
- Created a responsive React.js front-end for easy article management with an interactive text editor.
- Integrated PostgreSQL function for efficient article data storage with optimized query performance.

PROJECTS

Web application for TOEIC exam | github.com/ankoa/toeicWebFE

Sep 2024 - Jan 2025

A full-stack web app for TOEIC exam preparation and course sales using .NET, React.js, and Microservices architecture.

- Tech Stack:** .NET, React.js, MySQL, Microservices.
- Main Features:**
 - Managed CRUD operations for users, staff, exams, and courses with robust role-based access controls.
 - Integrated JWT for secure user authentication and profile management.
 - Allow users to select specific TOEIC test parts or complete tests based on their preferences.
 - Generated detailed performance and sales statistics to enhance user engagement.

Holland Career Orientation Web App | github.com/Dikay3105/webCauLong

Sep 2025 – Nov 2025

Developing an e-commerce website for badminton equipment using the MVC model.

- Tech Stack:** .NET, React.js, MongoDB, REST API
- Main Features:**
 - Implemented Holland six-type personality survey with dynamic question flow and automatic scoring algorithm.
 - Suggested majors, job roles, recommended university entrance exam subject groups and gave advice using AI.
 - Built analytics dashboards for admins to view test distribution, career interest trends and data export for reporting.
 - Deployed the platform for real users, reaching **500+ active test-takers** within 2 months.

SKILLS

- Front-end:** HTML/CSS (SCSS), JavaScript, ReactJS, Bootstrap
- Back-end:** C#, Java, JavaScript, .NET, Spring Boot, NodeJS
- Databases:** MySQL, SQL Server, MongoDB, PostgreSQL
- Tools & Collaboration:** VS Code, Visual Studio, Android Studio, NetBeans, IntelliJ, Git, GitHub, Docker.
- Generative AI:** CoPilot, ChatGPT.
- Prompt Engineering:** Chain-of-thoughts, Prompt function, One-shot_ Few-shot Learning

CERTIFICATES & AWARDS

- Certificates:** Google: Elements of AI (2025), Elison: Intro to AI (2025), AWS Partner: Tailored (2025), TOEIC 820 (2024)
- Awards:** Good Student Scholarships (2021, 2022)
